## PROFILE

I like to code things for web, and enjoy bringing ideas to life in the browser. The scope of my work is a large part of frontend which includes HTML, design, coding layouts, single page applications, responsive websites, web apps, CSS/JS animations, and other work based on web development and javascript. I'm always open to adapt to work with team and work on new frontend skills and technology, freelance opportunities, contract jobs and use skills to solve complex UI challenges and provide value to the growth of an organization.
