## EXPERIENCE

### Project: Document Digitization

Implemented document digitization project using html, css, java, js , jsp, bootstrap, MySQL on Netbeans IDE. This facility has been provided to users to help them digitally store their documents like RC, DL, medical reports, certificates, etc. electronically. Our system has reduced paperwork and eliminated the use of Xerox copies of original documents. Users can rapidly access documents anywhere/anytime. And because of the document encryption provided by our system, users' documents are secured on our website.
